Tips on Boudoir Photography for the Minimalists | Fstoppers

The most common for boudoir photography is the natural or the cross-processed look. The natural look maintains natural skin tones and colors. This look may tint an image in a cold or warm tone depending on the mood of the portrait. When adjusting saturation, play with the vibrancy rather than the saturation slider.

i. We recommend moisturising your skin regularly in the run-up to the day, as well as applying a light moisturiser on the morning of your shoot. As you will have a lot of skin on show, hair removal is important too but we recommend getting this done a couple of days before, or on the morning if this works for you. ii.
