It's simple, but this is one of the most common and most frustrating printer problems there is. If there is no error message pointing you to the problem, check that the printer is still connected via USB or Ethernet cable, or if it's wireless, check that the Wi-Fi is enabled and connected to the right network. Check the printer driver, sometimes this can become corrupted and needs to be reinstalled. The correct driver for your printer can be found on your manufacturers download page.
