Manx2 Flight 7100 was a scheduled commercial flight from Belfast, Northern Ireland, to Cork, Republic of Ireland. On 10 February 2011, the Fairchild Metro III aircraft flying the route with ten passengers and two crew on board crashed on its third attempt to land at Cork Airport in foggy conditions. Six people, including both pilots, died. Six passengers survived but were injured, four of them seriously. The Air Accident Investigation Unit published its final report in January 2014. It stated th

Metro III. The Fairchild Metroliner III (Metro III for short) is our third largest aircraft, capable of transporting up to 19 passengers per flight. With a cruising speed of 300 mph, and a range of 1700 statute miles, the Metro III is the second fastest aircraft with the longest range in our fleet. It is easily capable of flying non-stop to any destination in North America, including airstrips with short gravel runways in adverse weather conditions.

Average hourly rate including fixed and variable costs based on the number of annual flight hours. As the chart displays, fixed costs are spread over more hours, the more you fly up to the point where additional crew will be required. We added 50% more crew at 800 flight hours and double the crew expense for 1,000 hours.
