specialties in the UK. It offers a stimulating intellectual challenge as illness may present in unusual ways in older people, they frequently have multiple pathologies that interact and they particularly prone to adverse drug reactions. It requires a generalist approach while also developing a subspecialty interest.

Geriatric Medicine | JRCPTB

Geriatrics, or geriatric medicine, is a specialty that focuses on health care of elderly people. It aims to promote health by preventing and treating diseases and disabilities in older adults. There is no set age at which patients may be under the care of a geriatrician, or geriatric physician, a physician who specializes in the care of elderly people. Rather, this decision is determined by the individual patient's needs, and the availability of a specialist. It is important to note the differen

Geriatrics is the branch of medicine dealing with the aged and the problems of aging individuals. The field of gerontology includes illness prevention and management, health maintenance, and promotion of quality of life for aging individuals. The ongoing increase in the number of people older than age 65 in the U.S. population is well known.

GERIATRIC RADIOGRAPHY | Radiology Key

The Mersey Deanery rotational training scheme is flexible in that it offers training and experience which can lead to the award of a Certificate of Completion of Training, CCT in Geriatric Medicine and Level 2 competence in General Internal Medicine. Training takes 5 years. Each hospital placement during the scheme lasts for one year.
