Motor Learning and Performance: A Situation-based Learning ...
Motor learning is a subdiscipline of motor behavior that examines how people acquire motor skills. Motor learning is a relatively permanent change in the ability to execute a motor skill as a result of practice or experience. This is in contrast to performance, the act of executing a motor skill that results in a temporary, nonpermanent change.

Motor Learning - Human Kinetics
We often confuse motor performance with motor learning. Motor performance is the ability to perform a motor task. Motor learning is to have a carryover between one movement pattern and other functional movement patterns.
